Dear Hiring Manager,

I am writing to express my interest in the Web Design & Development Project Manager position listed on Indeed. As an accomplished creative web and graphic design professional with 25+ years of hands-on experience in digital communications, graphic design, and web development, I am confident in my ability to positively contribute to your team.

Having successfully navigated a freelance career for much of my professional life, I am well-versed in collaborating with creative teams and directing a variety projects from concept through completion. One of my strongest qualities is my innate ability to fuse artistic vision with pragmatic and strategic thinking. I understand the importance of not only creating visually appealing designs but also ensuring that they resonate with the target audience and effectively communicate the intended message.

Skilled in nearly every aspect of website design, development, production, and management, I utilize a variety of applications, technologies (PHP, HTML, CSS, jQuery, JavaScript), and other software services (WordPress, Postmark, Mailchimp, Basecamp) to deliver professional and polished communications that meet project goals and exceed expectations. I have created brand identities, cohesive marketing collateral, advertising, and other digital and print assets that have deepened brand engagement for my clients in the long-term.

Some of my notable accomplishments include an eCommerce meal delivery service from concept to delivery, a WordPress LearnDash LMS, and an event booking and business management system for a non-profit organization. These experiences have honed my ability to turn creative concepts into tangible, impactful results.

All of my skills and experience culminate into a singular, acute ability to manage the dynamic processes of web design & development projects. I've developed my own management tools during my career to juggle multiple simultaneous projects and have been using Basecamp for project management and collaboration for the better part of a decade.

I invite you to view my resume and visit my portfolio at <https://designerChad.info/vc32> to experience my demonstrated skills. I look forward to the opportunity to discuss how my skills and experiences align with your Project Manager position.

Sincerely,

Chadwick Anderson
